1. Sovromtransport is building a new shipyard on the Danube about one mile upstream from Orsova. This shipyard is designed to handle maintenance and routine repairs of Sovromtransport vessels plying the Danube. The Soviets plan to use an old textile mill, which is the largest building of this yard which is scheduled for completion by the fall of 1950. Sovromtransport employees have learned that Wuensch, now acting captain of the Sovromtransport tugboat CHERNIKOV, will be appointed technical director.
2. DDSG, the Soviet-controlled Austrian shipping firm, will purchase machine tools and lathes in Austria for this shipyard. These purchases will be financed from schilling credits which Sovromtransport now has with DDSG.
